A worksheet for tracing a house shape. On the left, there are three colored shapes: a yellow rectangle, a green square, and a blue triangle. In the center, a grid of 18 dots (3 columns by 6 rows) is split vertically. A house shape is drawn on the left side of the grid, with a green triangle for the roof and a blue rectangle for the base. On the right side of the grid, there are 18 empty dots for tracing. To the right of the grid is a cartoon illustration of a brown owl.

A worksheet for tracing a lion's face shape. On the left, there is a cartoon illustration of a lion. In the center, a grid of 18 dots (3 columns by 6 rows) is split vertically. A lion's face shape is drawn on the left side of the grid, with a black square for the face and a grey triangle for the ear. On the right side of the grid, there are 18 empty dots for tracing. To the right of the grid are three colored shapes: a yellow rectangle, a green square, and a blue triangle.
